Our claim: Your well-being

## Quality assurance

### quality assurance

Quality management and assurance are an essential part of our clinic concept. They guarantee the consistently excellent level of treatment, advice and care at our facility.

All phases of the medical and nursing measures are seamlessly coordinated and documented. They are constantly and systematically checked by Quality Assurance. Necessary changes resulting from the examination processes are carried out quickly, flexibly and unbureaucratically on an ongoing basis.

Quality management at the Eilenriede Clinic includes:

- hygiene officer
- X-ray officer
- Blood Transfusion Officer
- Radiation Protection Officer
- Medical Device Officer
- Fire Protection Officer
- Complaint Management Officer
- Data Protection Officer

You can reach our representative for medical device safety via:
